AI & Design Tools: Claude (Anthropic), Claude Code, Claude Cowork, Claude Design, Google Gemini, Prompt Engineering for UX, Gen AI for UX

Design: Figma, FigJam, Framer, Prototyping, Wireframing, Interaction Design, Visual Design

Systems: Design Systems, Component Libraries, Tokens, Accessibility (WCAG AA), Responsive Design

Research: User Interviews, Usability Testing, Journey Mapping, Heuristic Evaluation

Productivity: Jira, Confluence, Miro, Zeplin, HTML/CSS basics

Languages: Spanish (native), English (native)

EXPERIENCE

Senior UX Technical Consultant · Perficient

May 2025 – Present

- Promoted to Senior Consultant leading UX strategy and delivery for Fortune 500 enterprise engagements across the US, including XPO Logistics, 3M, Mohawk Flooring, Toyota, and HAP Henry Ford.
- Drive end-to-end design from discovery to handoff, establishing UX standards and component libraries adopted across large internal teams and stakeholder groups.

UX Technical Consultant · Perficient

Sep 2022 – May 2025

- Embedded UX product designer on Fortune 500 client engagements, owning research, interaction design, and design system contributions across multiple parallel projects.
- Partnered with engineering, product, and business analysts to align design decisions with technical constraints and measurable business outcomes.

Founder · TheMiraiLab

Jan 2025 – Present

- Founded an independent UX product design studio specializing in intuitive, user-centered digital solutions bridging human interaction and technology.
- Leads discovery, strategy, and design delivery for clients across product design and digital experience consulting.

User Experience Design Lead · GASCO

Oct 2021 – Sep 2022

- Led the UX product design team at Chile's national gas utility, managing and planning new digital products across UX, UI, UXR, CX, and marketing verticals.
- Defined team priorities, onboarded designers, managed design budget, and championed design thinking and user-centered practices company-wide.
- Oversaw projects from intake through delivery, coordinating cross-functional stakeholders across multiple business units.

UX Product Designer · SKY AirlineMay

2019 – Oct 2021

- Owned product design for the web team and booking app, serving as primary UX lead for all customer-facing digital experiences.
- Redesigned the end-to-end boarding pass experience, replacing a third-party solution with an in-house design that improved brand consistency across all passenger touch-points.

UX/UI Designer · Entel

Nov 2017 – May 2019

- UX product designer within the Center of Excellence team at Chile's largest telecommunications company, working across product and customer experience.
- Co-led the launch of Entel's first unified design system, establishing component standards, documentation, and adoption workflows across product, CX, and brand teams.

UX Product Designer · Nsity App

Jun 2019 – Jan 2020

- UX design lead for a London-based civic tech startup enabling users to plant native forests and support nonprofits through in-app polls.
- Designed the core polling and impact-tracking experience end-to-end, from research through high-fidelity prototype and handoff.

UI Designer · Wavetec

Jun 2017 – Nov 2017

- Optimized user flows and interface design for enterprise queue management systems deployed in high-traffic environments. Based in Dubai.

Senior UX/UI Designer · 10Ben

2015 – Nov 2017

- Design lead for Houston-based clients including Microsoft, FSP Performance, K9s4Cops, and Houston Clinics, covering full UX lifecycle from discovery to developer handoff.
- Delivered digital products across web and mobile platforms, leading wireframing, visual design, prototyping, and stakeholder presentations.
